

## Progress Energy Rate Hike Petition

We, the undersigned, as tax paying citizens of the State of Florida, hereby protest, and question the legality, of Florida Statute 366.93. It is our contention that tax-paying citizens should not be burdened with the expense of a new nuclear plant through a pre-payment process years in advance of which the benefit of said facility may not be seen by those making such payments. We petition you to rescind Florida Statute 366.93 and stop Progress Energy from the application of pre-payments to our monthly bill.
